

BROUGHT TO YOU BY

Tradelink

Antroducing
The Soteria Range
of Composite Doors

TRADELINK work with a leading innovator in the composite door industry, with a reputation for building the highest quality doors.

SOTERIA foam filled composite doors are developed specifically for the UK market, with a wide range of door designs appealing to both the commercial and retail sector.

Our products come with the relevant accreditations to ensure peace of mind for our customers.

The factories at Tradelink carry UKAS accredited certification. In essence this guarantees that the production of the

products you are purchasing are being independently monitored to ensure they comply to all relevant industry quality assurance standards. Every door is quality stamped, giving customers peace of mind on manufacturing process and quality.

The SOTERIA door has also passed the rigours of PAS 24 in line with Approved Document Q, offering the highest level of security, with increased resistance to forced entry, and reinforced GRP skins as standard.

When it comes to supply, with SOTERIA, the emphasis is firmly on choice.

Was the goddess of safety and salvation,
deliverance, and preservation from harm.

A new SOTERIA composite door from Tradelink encompasses all these attributes.

With a wide range of styles and colours to choose from with the latest security feature available for every door, a SOTERIA door is the right choice for you.

Invest in an SOTERIA door and choose style, security and personality for your home.

GRAINED CONTEMPORARY DOORS

Composite Construction and GRP Skins

The SOTERIA composite door is the minimal-maintenance alternative to traditional door materials. It has 4mm reinforced GRP skins, finished in either woodgrain or Tradelink's unique smooth/etched finish that perfectly matches aluminium, delivers kerb appeal for any property. The TRADELINK door outperforms other market alternatives with outstanding thermal performance. Inside, the PU foam core reduces heat loss and is encompassed by an LVL (Laminated Veneer Lumber) subframe to provide strength and rigidity. The door protects the home from the elements and will have minimal thermal expansion and contraction rates under extreme temperature variations which is perfectly normal.

Exclusive Glazing Cassettes

The SOTERIA Composite door range uses Tradelink's glazing cassette system with revolutionary Foam in Place technology. Tradelink also offers the unique InoxTM cassette system finished in stainless steel or black matt finish.

RIGID FRAMES

SOTERIA composite door frames combine strength and durability with exceptional thermal performance, all in a style that perfectly matches the rest of the SOTERIA range of products.

As standard, SOTERIA composite doors use frames manufactured using the market leading Rehau uPVC sytem, kitemarked to BS EN 12608:2016. Rehau is the largest single producer of uPVC window and door systems in the UK and is part of one of the worlds leading polymer groups.

For the complete Premium Aluminium look.

ULTRA-RIGID, PREMIUM ALUMINIUM FRAMES BY SHEERLINE.

The prestige composite door frame combines strength and durability with exceptional thermal performance utilizing a unique Thermlock thermal break all designed and manufactured in the UK.

Door Finishes

Texture is so important to the overall aesthetics of the door design. Composite doors are available in three finishes:

Woodgrain

An authentic woodgrain texture presented flush for a blank canvas or with highly-defined mouldings for a traditional look.

Monza II

A linear panel design and bookmatched woodgrain detail. Totally unique and totally contemporary.

Links

Designed to match the smooth finish of aluminium. Unique, clean and totally customisable.

Thermal Performance

The Tradelink SOTERIA composite doors are thermally efficient by design.

The warm foam core allows the door to have a significantly better 'U' value than any other option on the market and our entire range meets with the requirements of the current Building Regulations.

Our full door range complies with Document L when using as a minimum a standard 3 chamber profile system & low aluminium threshold.

There are various upgrades to the glass options which increase the thermal performance of the door.

Door Style: Flush 3 Square Door Colour: Vanilla Decorative Glass: Artemis

Portforman

Performance

The SOTERIA composite door offers a truly appealing entrance for any home, with a high-definition smooth or grained GRP outer skin that will look stunning for years to come. The door offers stability from the elements with its inner core of LVL encased with composite stiles and rails for protection against any water ingress. Our doors usually have a grained PVC edge to the hinge and lock side in either White, Chartwell Green, Anthracite Grey, stain or paint finish.

The inner core is manufactured from high density polyurethane foam, which offers exceptional thermal efficiency and will help to reduce energy bills in comparison with any other door on the market.

Security

We take security very seriously. The SOTERIA composite door comes with security features which stand up to current security standards, including PAS 24, in line with Approved Document Q.

We provide a selection of the latest security hardware including multi point locks and high security cylinder and handle combinations.

Glass units which comply with Approved Document Q must contain one pane of class P1A (EN356) glass, which must be 6.8mm, security laminated.

This is available as an option on glass within our doors at an additional optional extra cost.

Colours

With our high-performance paint technology and state-of-the-art paint lines, we can offer any colour door which can even complement the colour options on frames. This provides a fantastic choice for the home. In most cases the doors come in white as standard on the internal side, however, for your own individual requirements we may be able to offer different or bespoke options, see our colour ranges on page 10 for more information.

Glass and Glazing

The visual impact of your door is enhanced by your choice of glass. Depending on the style, the units will be either a double or triple glazed unit.

The glazing cassette system is re-glazeable and passes PAS 24:2016 security attack tests.

Secure Locking

Platinum 3 Star Cylinder

Maximum security, complete versatility.

New Range of **PATINA Colours**

The Monza II door range is available in 6 unique patina stained handcrafted finishes, each base colour has a carefully selected complementary patina stain designed specifically to enhance the Monza's contemporary slab detailing.

Door colours shown in this brochure should be used for guidance only. We have made every effort to match the colour and stain you see in the brochure so it's as close as possible to our paint when applied to the doors. Due to the nature of the product it is applied to, there is sometimes a difference between them which we cannot avoid. The colour, intensity and sheen level may differ from the paper print version and we do not accept any liability for this for whatever reason. To ensure that you are getting the right colour on your door, ask for your Tradelink colour swatch today

I HYBRID SOLIDCORE DOORS

SOLIDCORE

Engineered to deliver a door that is stronger, more rigid & thermally stable than anything on the market.

Developing a solid core door was a logical step but it needed to push the boundaries. Drawing on the collective experience of our team and our specialist partners, we have created a composite door engineered with superior SOLIDCORE technology.

SOLIDCORE technology is a hybrid of modern and traditional materials and has been engineered to deliver a door that is stronger, more rigid & thermally stable than anything on the market. The solid inner consists of 3 layers of cross laminated engineered hardwood. This is encased with LVL (Laminated Veneer Lumber) & hardwood stiles and rails for protection against any water ingress, and then pressed with Tradelink's signature 4mm GRP skins.

The result is a door that will not crack, move or de-laminate, requires minimal maintenance and will look beautiful and protect the home for years to come.

Safety & Security – the DNA of SOLIDCORE technology.

SOLIDCORE

With SOLIDCORE technology, we have created the ultimate composite door. The innovative one-size-fits-all makes SOLIDCORE a cutting-edge modern-day addition to any home.

After all, a front door is more than just a door. It's a focal point for the home that can really make a statement.

SOLIDCORE has a traditional or modern appearance that offers superior benefits to anything on the market. It creates a formidable barrier that requires minimal maintenance. A SOLIDCORE door will protect the home against the elements, deter intruders and look beautiful for years to come.

3 layered inner core of cross laminated engineered hardwood, creating a stronger, heavier and more robust door, that offers exceptional results when it comes to thermal efficiency too.

Tradelink's signature 4mm GRP skins are pressed onto the core with a unique method, ensuring flawless correlation with the core. Available in three finishes that can be painted any colour, they are a stylish, formidable barrier that requires minimal maintenance.

♦ GLAZING

Decorative Glass Options

Decorative Glass transforms doors and makes a personal statement. We offer a range of styles to suit all budgets and tastes from contemporary styling to traditional choices. All our decorative glass is manufactured to the highest possible standards.

Artisan

Striking and flowing elliptical shapes join an array of crystal clear diamond bevels to create a dazzling effect. Glue chip surrounding textures provide a perfect

Birchwood

The purity of this linear range draws its inspiration from Frank Lloyd Wright. Hints of cubism come together with leading edge glass technology to create a wonderful multi-textured finish.

Astoria

An Edwardian era design created using a combination of rich coloured glass of varying texture. Encapsulated inside a triple glazed unit to combine traditional leaded glass with 21st Century performance.

Bloomsbury

An impressive large bevel cluster for those looking for a real feature statement. The Bloomsbury bevels will refract light beautifully and it's intricate detail is unsurpassed.

Athena

The Athena gracefully combines brilliant cut lines and a clean sandblast finish. The understated half glazed model is a great option as a simple glass design for a back

Carrington

Only available in our Carnoustie door, this simple design and uses traditional lead on a stipple backing glass. The diamond lead design sits proud to the outer pane when glazed into the door.

Belgravia

A Victorian inspired repeat design with a delicate star motif set into a diamond pattern. The combination of etched and clear glass works beautifully well on this

Diamonte

Offset diamond clear bevels of the Diamonte design provide a particularly modern finish. This contemporary design is finished to the highest standard with zinc and soldered joints.

Essence

A 1930's style decorative glass design combining a range of bold heritage colours and textured glasses with blackened caming and traditional soldered joints.

Grange

Our Bullion uses new techniques to create a very deep cut and impressive look The circular bands create prisms of light and the design works very well in all styles

Hathaway

Antique coloured glass is joined using a stunning black came and weld. All is encapsulated within the insulated unit for easy upkeep and to protect the design

Indulgence Grey

The delicately shaped clear glass bevels glisten against the etched glass and create a look of understated and tasteful elegance.

Lanesborough

Genuine coloured Spectrum Glass with blackened cames combine to create this stunning leadlight design, reminiscent of the Victorian era. With Lanesborough, you can now have all the benefits of traditional leadlights, with the performance and thermal properties you would expect in your door. Available in 3 border colours: Amber, Blue or Green.

Numbers*

A custom house number as a combination of clear and etched glass, is available on a range of standard glass sizes.

Optimal

Simulated divided lights create the look of individual panes of glass, whilst maintaining the performance benefits of a single double glazed unit.

Onyx

Beautifully handcrafted, the geometry of the brilliant cut recurring diamond motif, complemented by etch effect glass, bring privacy and security to your home.

Prestige

An ageless classic design with crystal cut bevels surrounded by a stipple backing glass. The design incorporates clean zinc lines and traditional welded joints.

Renaissance

'Renaissance' epitomises ultimate luxury. An ornate clear bevel cluster will shimmer and refract natural light beautifully. This lush option is available with the choice of a clear or black crystal cut border.

Stardrop

Stardrop features delicate star drops in a sparse pattern giving a high level of obscurity through the etched texture of

The Tiffany is reminiscent of designs used in the Victorian period. It uses a combination of vibrant coloured glasses against a background of softly rippled glass, with

Tranquility Zinc

This extremely popular model combines multiple cut bevels and striking backing textures all encapsulated with the insulated

Trio Diamonds

The finest quality of hand crafted decorative triple-glazing with a contemporary zinc finish. Luxury crystal cut bevels are sealed securely between 2 panes of safety glass to ensure good looks for many years to come.

4 Bevel

A simple glass design combining 4 clear bevelled glass squares and blackened caming that allows the light to flood.

*Numbers is a bespoke glass design, customised to suit your number/letter requirements. We use a standardised font but the position and scale may differ according to the number of characters requested

Artemis

Simple but extremely effective. The Artemis features an etched glass centre with a clear surrounding border. A strong option for both traditional and modern homes alike.

Aspen

This European style design is produced using high grade brushed stainless Inox elements, that are bonded to the centre pane of glass. This combination provides a unique contrast.

Aztec

A luxury triple glazed option, featuring modern black came with hammered and stipple backing glass. This crisp design offers very high levels of privacy and allows lots of light throughout any entrance.

Deco

Exclusively commissioned by glass artisans, Deco uses a sophisticated frosted backing glass coupled with clear dividing lines that create a simple, elegant and highly desirable contemporary design.

Halo

A stunningly simple design, Halo is created using hand cut glass centres, that are polished and bonded within a clear border. The contrast offers a beautiful combination.

Luxor

Intricate laser cut brushed stainless steel is inset within each triple glazed panel and located with zinc joining strips. A heavily embossed backing glass offers good levels of privacy.

The concentric squares inside a band of

sandblasted glass is a subtle take on our

Vector design. The Difuso glass ensures

high levels of privacy whilst maintaining

light transmission.

Mercury

A modern clear design laced into an etched backing glass with feature clear glass bevels. Mercury has a chic look with the glass bevels siting proud to the outer glass pane.

Milan

A modern yet understated, sleek decorative door glazing. A blend of deep cut glass bevels and 'reed' highly obscure backing glass combine perfectly to reveal an extremely alluring finish.

Panama

A sophisticated, contemporary design incorporating various glass textures with clear 'came' lines. Panama is a twist on lineal Art Deco period style.

Rhapsody

Rhapsody is designed to focus on European styling that suits the door that surrounds them. Contemporary, clean, simple etched designs that have proved very popular.

Synergy

A modern twist on a traditional technique, Synergy combines hand-cut textured glass pieces, contemporary fused glass elements and polished zinc cameing.

Tokyo is designed to focus on European styling that suits the door that surrounds them. Contemporary, clean, simple etched designs that have proved very popular.

By combining Fusion glass tiles with small stainless steel elements and etched glass, Vector is a strikingly modern glazing option that is ideally suited for contemporary doorsets.

Victorian Border

Obscure delicately sandblasted glass combined with a crisp clear keyline gives Victorian Border a classical simplicity that is equally in place in contemporary and

Inspired by Pop Art and developed into a decorative glass design unlike anything else available by our design consultant Jeyda, Bold Pink makes the ultimate

Impression

Hive has always been a icon of hard work, but more recently, promotes the ideal of togetherness. It's roots have been based in Manchester for centuries – but can be seen across the UK as a symbol of nature.

Stunning black chrome caming combined with satin and grey bevelled glass pieces, Impression makes a striking statement encapsulated inside a double glazed unit for easy cleaning.

Etch Lines

The simplicity of the clear lines against the etched effect gives a truly contemporary, minimalist look that combines privacy and

Graphite

Graphite is modernity at its best. Using the latest weld-free caming technology in stunning matt black, it is a modern take on decorative glass which will complement any contemporary door.

Kew combines intricate bevel work and soft water glass against a background of obscure etched glass. The central flower motif will make a stunning focal point for any door.

Lotus

Using the 'weld-free' chrome finish aluminium cames, combined with bevelled glass pieces and etched Millenium glass, Lotus is a truly stunning yet simple design.

Hive

Louisiana

The complex bevelled design combined with stunning textured glass creates a design with undoubted kerb appeal and 'Wow Factor'.

Metallic

Metallic is a brand-new innovation that combines a striking etched backing design with ultra-modern brushed stainless steel effect inserts. Perfect for those seeking the very latest contemporary finish.

Peak

From the unique Jeyda design collection, Peak is a fabulously unique design with an array of colours and textures combined with fine black lines.

Quadratum

The Etched glass squares with delicate clear circles inset in the pattern is a modern twist on the traditional etched glass style.

Metropolis

Metropolis is inspired by the Art Deco designs of the 1930's and, with its bold design and colourways, it looks equally at home in both traditional and more modern door settings.

Quantum

Combining our soft acid etched Difuso glass with the deeper texture of the sandblasted design creates a modern, striking glass perfectly suited for contemporary doors.

Skylin

A simplistic yet strikingly modern glass design, Skyline uses a combination of multi-width clear lines against a background of delicately sandblasted glass.

Soul Pink

The combination of delicate pink colours with varying levels of transparency, combine to create a modern design with a nod to the mid-century modern design style.

Spirit Pink

Bold colours and textures glass effects are combined with a beautiful, fused glass motif.

Space

Minimalist and stylish, Space is a modern geometric design of an etched glass design, offset with 3-dimensional black glass elements, encapsulated inside a triple glazed unit.

Tectronic

A truly contemporary design from our in-house designer Jeyda. The geometric shapes are combined with neutral greys and black glass colours to create a design unlike anything else on the market today.

Trinity

The multi-width lines of Difuso soft acid etched glass contrast beautifully with the deeper texture of the sandblasting to create a truly modern design.

Clear or Obscure Glass Options

The majority of our door styles are also available in a standard range of 4 carefully selected Low-E toughened patterned glass options or Low-E toughened clear glass. (Laminated versions also available).

Minster

Minster pays homage to historic hammered glass and is most suited to period homes or more traditional door styles.

Stippolyte

The timeless appeal of this stipple effect glass makes it one of our most popular options. The surface texture offers very high levels of obscurity and the design suits most door and house styles.

Cotswold

A more heavily textured pattern resembling water cascading over a surface. It is one of our most popular patterns and is especially suitable for doors that require higher levels of privacy.

Satin

Satin glass is an acid etched glass that offers high levels of privacy. It is a very neutral finish similar to sandblast and is ideal for use in both traditional and contemporary doors.

Decorative Glass Availability

Our multitude of decorative glass designs and options, paired with a wide range of door styles enables you to personalise your door effortlessly.

Composite Door Sizing

Due to the number of PVC-u profiles available to produce our composite door, certain restrictions in size could apply. The sizes below are an estimation only of the typical range using a standard 70mm outer frame with a 50mm internal height and the definitive size range will be confirmed dependent on survey.

			Height with Standard PVC Cill	Height with Low Threshold Cill	Width	
	Cinala Daor	Minimum	2003mm	1983mm	823mm	
	Single Door	Maximum	2103mm	2083mm	1022mm	
	Door with Single	Minimum	2003mm	1983mm	1278mm	
	Composite Sidelight	Maximum	2103mm	2083mm	1497mm	
	Door with Single	Minimum	2003mm	1983mm	1095mm	
	Glazed Sidelight	Maximum	2103mm	2083mm	2145mm	
	Door with Double	Minimum	2003mm	1983mm	1733mm	
	Composite Sidelight	Maximum	2103mm	2083mm	1972mm	
	Door with Double	Minimum	2003mm	1983mm	1368mm	
	Glazed Sidelight	Maximum	2103mm	2083mm	3376mm	

Part M Compliance

Technical Specifications

SOTERIA 44mm Door

- > Grained GRP SMC skins are available in a wide variety of styles and colours including wood stains
- > Stiles and Rails are manufactured from a water-resistant polymer
- > LVL is used as the main internal reinforcement
- > Skins and sub frame are bonded with a Urethane Adhesive Resin
- > The door is filled with CFC-Free Polyurethane Foam density 44.5 - 45.5kg/m³
- > Superior heat and sound insulation
- > Complimentary choice of grained reglazeable
- > Centre Pane Value of approximately 0.44
- > Doors have exceeded the requirements of PAS24
- > Q-Marked with full manufacturing traceability

Care and Maintenance

Your new door should keep safe and secure for years to come however with all products and especially those that are exposed to the elements we recommend that you carry out a care and maintenance routine.

> Door frames should be washed with warm soapy water, however stubborn stains can be removed using specialist PVC-u cleaners and by following the manufacturers' guidelines.

Glass

All the double and triple glazed units used in our doors are manufactured to the highest standard and come with internationally recognised accreditations for performance, strength and thermal efficiency.

High Performance Units

All units are made with toughened glass to comply with EN12150, the International standard for safety glass. All units are manufactured to the EN1279 standard for quality of seal and life expectancy and come with a manufacturer's 10 year warranty.

Thermally Efficient

All the clear or obscure glass units in our range have insulating features as standard. They are manufactured using low emissivity glass and the airspace is filled with Argon gas to give industry leading thermal efficiency. In addition, we only use warm edge spacer systems.

Security and/or Safety Option

Most glazing options can be supplied with an upgrade where the outer pane of toughened glass is replaced with laminated glass which holds together when shattered.

- > The door leaf should only be cleaned using warm water or non-aggressive composite door wipes. No solvent-based product or abrasives should be used as these will damage the surface of the skin.
- > External glass should be cleaned with warm soapy water and cleaned with a proprietary glass cleaner.
- > Hardware can be cleaned with a mild detergent and wiped clean. No harsh chemicals or abrasives should be used.
- > Maintenance of the door may be required to maintain any guarantees from the installer. Hinges should be lubricated with engineering oil. Cylinders can be lubricated with Teflon-based products only, as other oils may cause degradation. If necessary, a small amount of lubricant can be applied to the moving parts such as letterplates, handles and knockers.

We're committed to maintaining a variety of choice when it comes to composite doors.

Innovation, thanks to our close collaboration is key to providing the biggest choice for our customers and ensuring we offer the largest range of composite door styles on the market.

Our products are fit and forget the return rate for doors back once installed is less than 1% of total sales.

An approachable, open-door policy with customer-centric culture: customers can communicate with Tradelink staff at every level. No problem is too big or too small for our team.

Wherever possible, we come up with solutions to balance raw material and currency fluctuations, without simply passing on costs to our customers.

Significant investment has been made into Tradelink facilities, staff, IT systems, tooling and engineering, automation and marketing to ensure our strategic growth is managed.

Privately owned and proud to be independent.

All images portrayed in this brochure should not be reproduced without specific written permission from Tradelink Direct Ltd. Images, designs and colours are for illustrative purposes only and may differ when manufactured. We reserve the right to amend or withdraw any products within this brochure without prior notice. Door colours shown in this brochure should be used for guidance only. We have made every effort to match the colour and stain you see in the brochure so it's as close as possible to our paint when applied to the doors. Due to the nature of the product it is applied to, there is sometimes a difference between them which we cannot avoid. The colour, intensity and sheen level may differ from the paper print version and we do not accept any liability for this for whatever reason. To ensure that you are getting the right colour on your door, you can order Tradelink Direct colour swatches from your supplier.
